

# GPAX

The Peace Action Committee (GPAX) of the Green Party of the United States (GPUS) exists to facilitate the planning and achievement of peace and justice action proposals adopted by GPUS, and to support and promote the Party's Anti-War candidates and agenda. The Peace Action Committee is a committee of the GPUS and is governed by section 3 of the bylaws of the GPUS.

GPAX is composed of 3 voting delegates from each accredited state Green Party and national identity caucus. States can also send non-voting observers to participate in GPAX and GPAX welcomes participation from all Greens devoted to our committee mission.

To send a delegate or observer to GPAX, state party co-chairs may send a note to the GPAX secretary with the name, email, and phone number of each delegate or observer. GPAX maintains a GP Listserv for the communication of committee business and decision making.

GPAX focuses on developing creative and innovative strategies, processes, and methods for building, galvanizing, and mobilizing a grassroots peace movement to achieve peace and social and economic justice for all.

If you are a Green and would like to work with GPAX, please provide your name, state/city, e-mail and telephone number for a GPAX member to contact you\*

---

\*Information will be kept confidential; it may include contacting your state for vetting, conf. calls, listserv, and cooperation

Does your state chapter have an active peace committee, if so, describe?

---

---

Describe the antiwar activities or coalitions in which your Green Party chapter or State Party is involved.

---

---

What antiwar/peace issues and actions are of most interest to you?

---

---

How could GPAX help your Green Party antiwar activities and organizing efforts?

---

---

Do you have any of these skills?  
(not necessary to participate)
